PROFESSIONAL SUMMARY

Data Science and AI Engineer with strong foundations in computer science, focused on building data-driven intelligent systems and scalable solutions. Skilled in transforming data into actionable insights and integrating machine learning models into real-world applications, including AI agents, educational platforms, and automation systems. Combines analytical thinking with practical engineering experience across backend development, IoT integration, and applied AI, with a proven track record in research, competitions, and project-based innovation. Passionate about leveraging data science to drive decision-making and solve complex real-world problems.

EDUCATION

BTech — Artificial Intelligence & Data Science

KJ Somaiya Institute of Technology, Mumbai | University of Mumbai

Sept 2024 – Present

Diploma — Computer Engineering | 88.22%

Guru Gobind Singh Polytechnic, Nashik | Maharashtra State Board of Technical Education

2021 – 2024

DATA SCIENCE & AI PROJECTS

1. Mentor AI — Adaptive Learning Assistant *(NLP · Adaptive Testing · Published Research)*

- ▶ Designed NLP-powered AI tutor that personalises concept explanations and auto-generates **adaptive MCQ tests** based on learner performance — enabling targeted, efficient revision
- ▶ Published in IJMRSET Vol. 7, Issue 3; presented at State Level Event 2023 — demonstrating research-grade experimentation and evaluation methodology

2. Educational Content Generator Agent *(LangChain · RAG · Multimodal AI · Streamlit)*

- ▶ Built end-to-end LangChain agent ingesting YouTube videos, Google Docs, and LMS content to auto-generate quizzes, flashcards, and TTS audio summaries — a complete **data-to-insight pipeline**
- ▶ Integrated Quizlet API for automated deployment; shipped on Streamlit Cloud with GitHub CI; covers full ML engineering lifecycle from data ingestion to UI delivery

3. Max — Fully Offline AI Voice Assistant *(Edge AI · On-Device Inference · Raspberry Pi · Gemma 1B)*

- ▶ Engineered a privacy-first, zero-cloud AI assistant on Raspberry Pi using Gemma 1B for **on-device LLM inference** — showcasing model optimisation and edge deployment under resource constraints
- ▶ Implemented custom wake-word detection and complete audio pipeline: mic capture → LLM inference → TTS output — all with sub-2s latency

4. Synapse — AI Mental Health Assessment Platform *(Psychometric Scoring · Severity Routing · Hackathon Winner)*

- ▶ Developed WHO-aligned psychometric assessment engine scoring stress, depression, and anxiety — with severity-based routing to AI therapist or live therapist
- ▶ Built analytics dashboards for users and parents; won at national-level hackathon (GGS, MoE Innovation Council)

PROFESSIONAL EXPERIENCE

Tech Head · CyberSecurity Cell · KJ Somaiya Institute of Technology

Present | Mumbai

- ▶ Leading technical operations of the KJSIT CyberSecurity Cell — overseeing vulnerability assessments, security awareness initiatives, and hands-on cybersecurity workshops for students
- ▶ Coordinating CTF competitions, technical events, and digital security drives; bridging academic knowledge with real-world threat landscape practices

Generative AI Intern · Capabl × KJ Somaiya (TechfusionX)

Apr 2025 | Mumbai

- ▶ Completed the **MSME & Startup India—recognised** Gen AI Saksham Program, building production-ready generative AI workflows
- ▶ Developed LLM-powered prototypes leveraging prompt engineering, chain-of-thought reasoning, and API orchestration
- ▶ Collaborated on real-world business use cases integrating generative AI into data pipelines and client-facing products

Web Application Development Intern · **R3 Systems Pvt. Ltd.**

Jun – Jul 2023 | Nashik

- ▶ Completed 7-week industrial training in full-stack web development (Java); built and tested production modules under mentorship
- ▶ Gained hands-on exposure to SDLC, QA processes, and professional software delivery in a client-facing environment

Cyber Security Volunteer — Cyber Doot · **Nashik City Police**

2023 | Nashik

- ▶ Trained under Nashik City Police Cyber Cell on cybercrime investigation; received official commendation certificate

TECHNICAL SKILLS

Data Science & ML: Pandas · NumPy · Scikit-learn · Matplotlib · Seaborn · Data Scraping · Data Extracting · Feature Engineering · Statistical Analysis · Apache Spark · Apache Kafka · Power BI · Tableau

AI / LLM: LangChain · OpenAI API · Prompt Engineering · Agent Architecture · RAG · Gemma 1B (Local) · TTS / STT · Multimodal AI

Programming: Python · SQL · Java · JavaScript · C++ · REST APIs · Streamlit

Databases & Big Data: MySQL · PostgreSQL · MongoDB · Apache Hadoop (HDFS) · Apache Hive · Apache HBase · Apache NiFi · Spark SQL · ETL Pipelines

Tools & Platforms: Git & GitHub · Apache Spark · Apache NiFi · Apache Hadoop · Streamlit Cloud · Jupyter · Docker · Raspberry Pi / Edge AI · Linux / Kali · VS Code

Soft Skills: Research Writing · Problem Decomposition · Cross-functional Collaboration · Agile Prototyping

AWARDS, PUBLICATIONS & CERTIFICATIONS

CERTIFICATION / AWARD	ISSUING BODY	YEAR
— 2nd Rank — AI-Ideathon (Multi-Agent Orchestration)	KJ Somaiya / AI-Robo Festival	Feb 2026
— Best Performance — S4DS IoT Poster Presentation	KJ Somaiya Institute of Technology	Nov 2025
— Research Paper: Mentor AI — IJMRSET (IF 7.521)	IJMRSET Volume 7, Issue 3	Mar 2024
Research Paper: The Power of the Cloud (IF 5.49)	IJSRED / IC-RTETM-2023	Jun 2023
— GGS Hackathon Prize Winner (MoE Innovation Council)	GGSP-IIC, Nashik	Feb 2024
Cybersecurity Analyst Job Simulation (IAM)	Tata / Forage	Aug 2025
Gen AI Saksham Program (MSME & Startup India)	Capabl x KJ Somaiya / TechfusionX	Apr 2025
Cyber Security Volunteer — Cyber Doot Award	Nashik City Police Commissionerate	2023
International Paper Presentation (IC-RTETM-2023)	GGSP Nashik	Jun 2023
